

JAHIR WILLIAMS

ENTRY-LEVEL FRONT-END DEVELOPER | REACT • JAVASCRIPT • HTML • CSS

Bloomington, GA 31302 | 201-410-5792 | jahirwilliams12@gmail.com | github.com/Jahir-tech

PROFESSIONAL SUMMARY

Entry-level front-end developer and U.S. Army veteran transitioning from transportation and logistics into technology. Hands-on experience building responsive, interactive web applications with React, JavaScript, HTML, and CSS. Currently completing front-end development training with practical experience in component-based development, state, events, forms, responsive design, and modern Git-based workflows.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3

Frameworks/Libraries: React, Tailwind CSS, Bootstrap, Motion / Framer Motion, React Leaflet, Leaflet

Tools: Git, GitHub, npm, Vite, VS Code, ESLint

Concepts: JSX, Components, Props, State, Event Handling, Controlled Forms, Lists & Keys, DOM Manipulation, Responsive Design, CSS Grid, Flexbox

TECHNICAL PROJECTS

The Coffee Beans Place | React Web Application

2026

- Developed a responsive React coffee shop interface using reusable components, JSX, props, state, event handling, and dynamic rendering.
- Applied Tailwind CSS and Motion for responsive styling and UI animation; integrated Leaflet/React Leaflet for mapping functionality.
- Managed dependencies and development workflow with npm, Vite, Git, GitHub, and ESLint.

Vintage Barbershop | Interactive Booking Website

2026

- Built a responsive HTML/CSS/JavaScript website with a custom appointment interface, calendar navigation, selectable dates/times, business-hour logic, form validation, and duplicate-booking prevention.
- Implemented DOM manipulation, event listeners, array methods, conditional logic, template literals, responsive navigation, modal interactions, and dynamic rendering.

Eras Furniture & Landscape | Responsive Business Website

2026

- Created a responsive HTML/CSS/JavaScript site using CSS Grid, Flexbox, media queries, video backgrounds, transitions, hover effects, smooth navigation, and scroll-triggered interactions.

TECHNICAL TRAINING & CERTIFICATION

Vet Boss | Front-End Web Development Training

Jul 2026 - Present

- Hands-on training in HTML, CSS, JavaScript, React, JSX, components, props, state, events, lists/keys, forms, styling, routing, and Git/GitHub workflows.

COITB | Web Designer Certification

Jul 2026

PROFESSIONAL EXPERIENCE

CDL-A Intermodal Driver | Container Port Group | Savannah, GA

Aug 2025 - Aug 2026

- Managed time-sensitive freight movement from the Port of Savannah while maintaining DOT compliance, vehicle inspections, electronic logs, customer communication, and safe regional operations.

Class A Commercial Driver | TransForce, Inc. | Pooler, GA

Apr 2023 - Jul 2025

- Supported local and regional transportation and warehouse operations, including route planning, inspections, inventory movement, loading/unloading, and regulatory documentation.

Motor Transportation Operator / Specialist | United States Army | Hunter Army Airfield, GA

Oct 2017 - Mar 2022

- Coordinated vehicle dispatch and motor-pool operations; maintained maintenance/fuel records, collaborated with mechanics, transported personnel and hazardous materials, and supported Forward Arming and Refueling Point operations.

EDUCATION

High School Diploma | Passaic County Technical Institute | Wayne, NJ

2017
